

SMP (Skimmed Milk Powder) Specifications

FARME L
dairy business

SKIMMED MILK POWDER

Skimmed Milk Powder is derived from spray-drying fresh pasteurized skimmed milk and is available in several different specifications, as well as, origins (factories/regions).

Skimmed milk powder can be used as an ingredient to reconstitute milk, as an alternative of fresh milk. Other common applications are in dairy products, bakery goods, chocolate, confectionary, cheese and ice cream.
