

SWP (Sweet Whey Powder) Specifications

FARMEL
dairy business

SWEET WHEY POWDER

Sweet Whey Powder is derived from Spray-dried fresh whey which comes from the manufacturing of Casein or Cheese.

We can offer our sweet whey powder in different grades, both feed and food.

Options

- In several different specification and origins (factories/regions)
- Dietary certifications (Kosher/Halal)

Product characteristics

Moisture:	< 5%
Milk Fat:	< 1.5%
Protein:	> 11%
Lactose:	> 65%

Ingredients

Sweet Whey Powder from 100% Cow's milk that has been heat treated no less than 72 °C for 15 seconds (or temperature/time equivalent).

Suggested applications

Sweet Whey Powder can be used as an economical replacer of whole milk powder in a wide range of food applications such as bakery, ice cream, confectionary and yogurt. It can also be used as a support to get proper color development when under high-temperature.

Packaging:

25 kg bags, big bags (different volumes) and bulk

Shelflife:

12 to 24 months depending on the origin and packaging.
